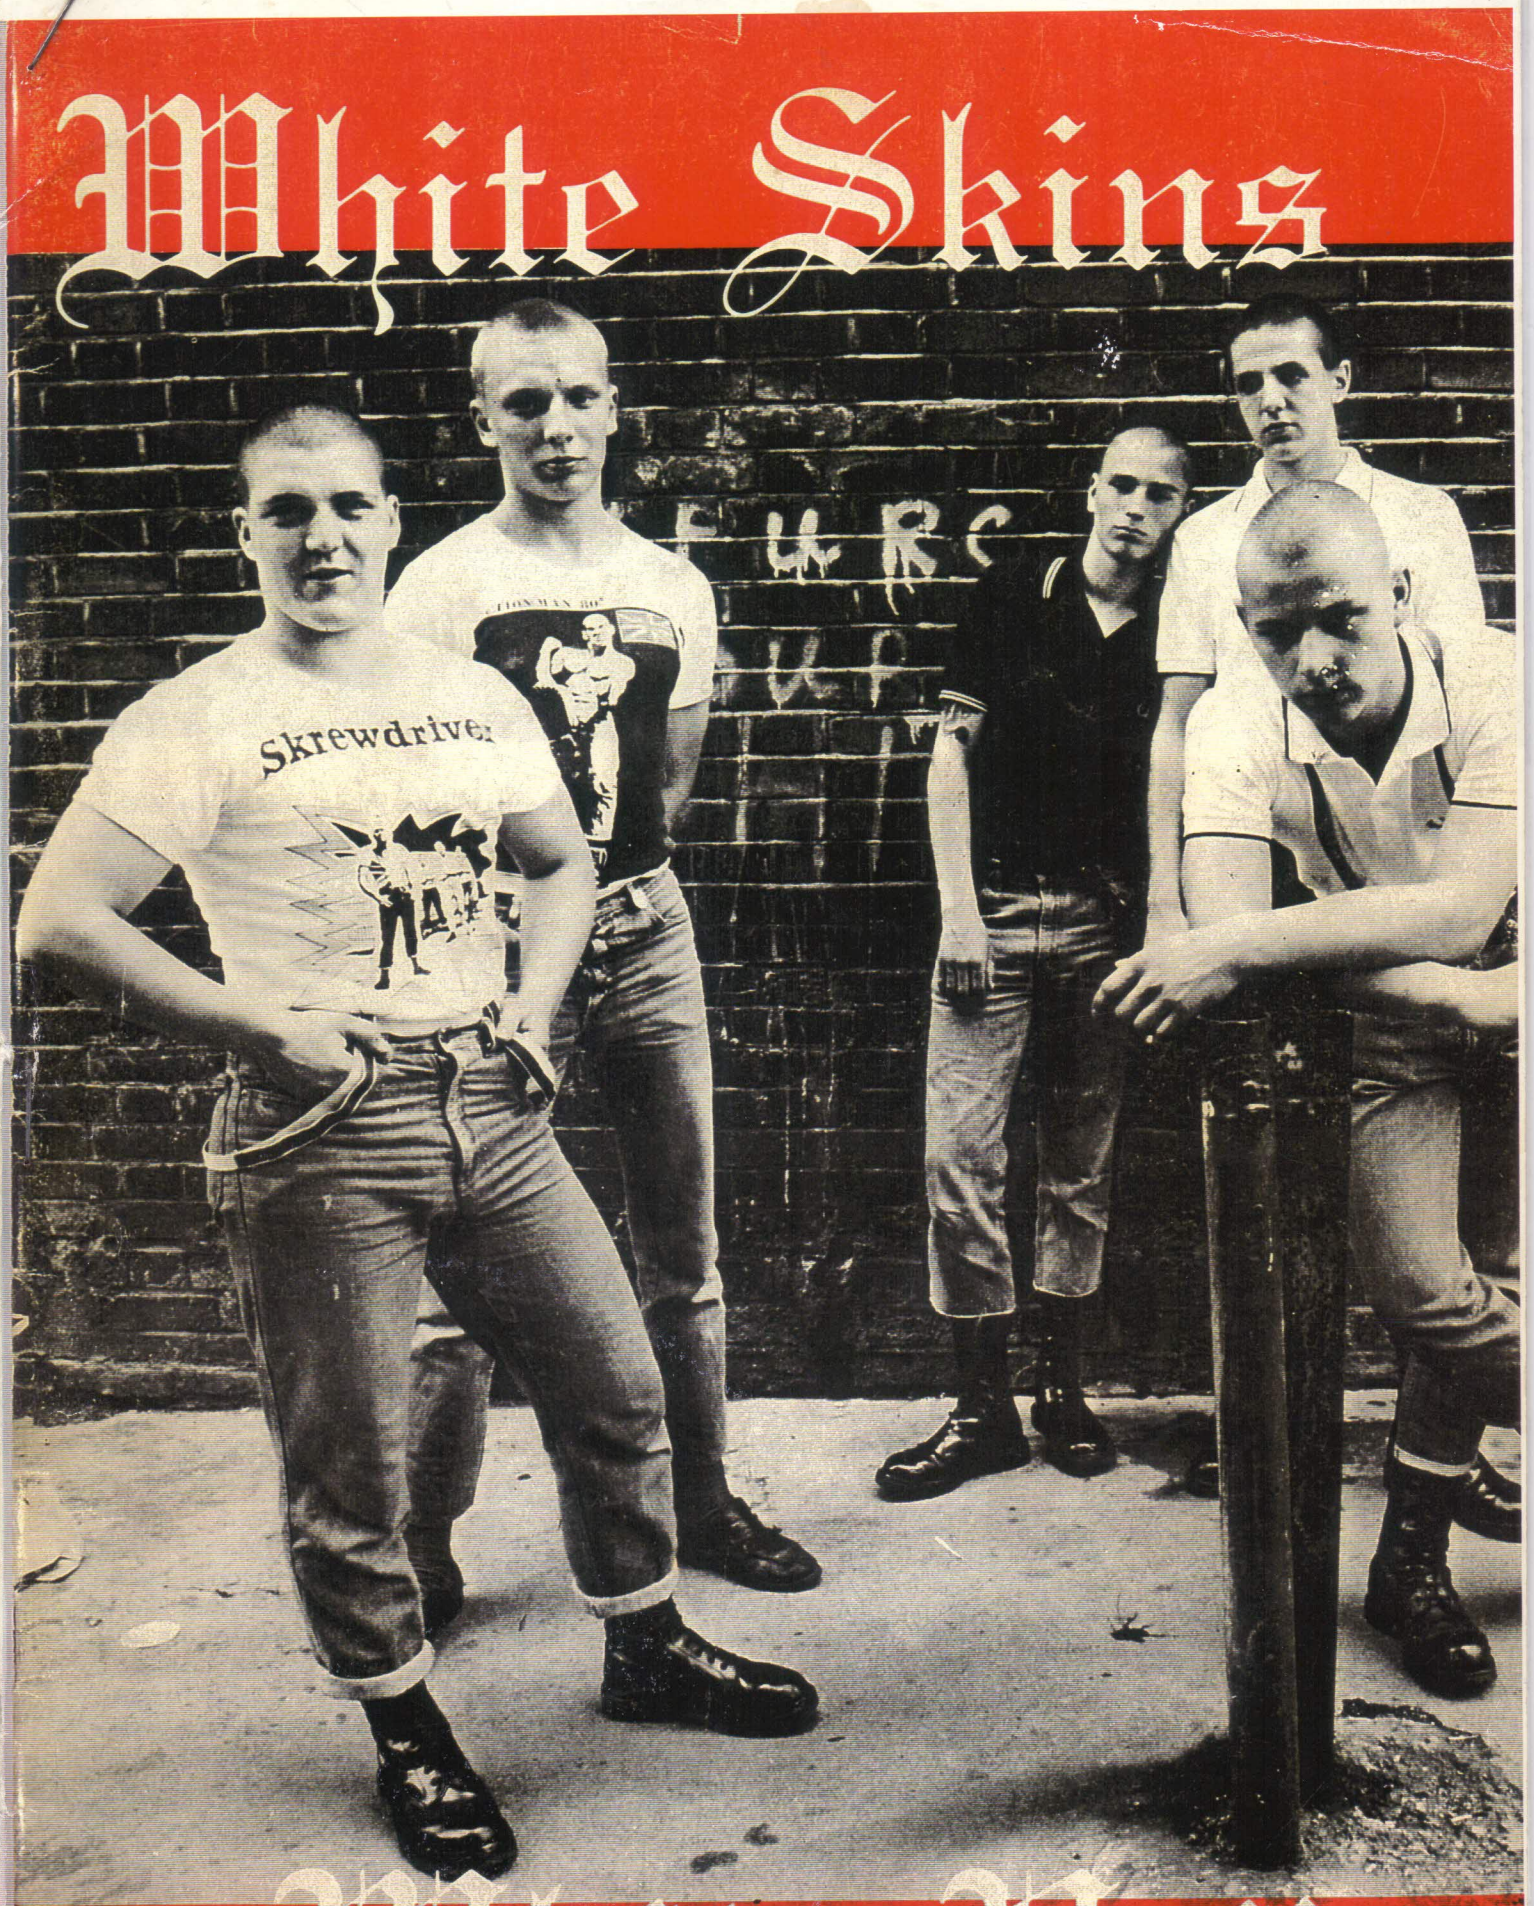
White Skins



White Pride

White Skins White Pride

THIS Picture book is a celebration of White Pride; the pride in their Race of the skinhead movement worldwide. Skinheads, as the left-wing has never ceased to remind us, are a White phenomenon. The skinheads have always been a patriotic movement, despite attempts by the music media to set up a left-wing alternative called Redskins.

This attempts failed miserably but more attempts have followed, and will do so as long as there are skinheads about. The skins' loyalty is to their race, their nation and to the bands that they follow.

Most of the skins rally round a movement known as *Blood & Honour*, which is a music paper originally formed by four skinhead bands who split away from an organisation named 'White Noise' which proved to be corrupt.

It turned out that two of the organisers of 'White Noise' were the total examples of everything skins hated. One was an extremely effeminate type who disliked skins and only saw them as a way of making money. The other was also an ex-student who considered himself an intellectual. He also disliked the skinheads and considered himself above them.

To top it all, they had been totally dishonest to the bands. These bands decided to leave and form *Blood & Honour*. The bands Skrewdriver, Brutal Attack, No Remorse and Sudden Impact have now been joined by proud white bands from all over the world and have records for sale everywhere.

As has been said, the skins are predominantly patriotic and many belong to Nationalist, National Socialist and Fascist parties in their own lands. Many people have likened the skinhead movement to the Stormtroopers of the National Socialist party at the beginning of the Third Reich. The enemies of the skinheads use the Stormtrooper description as abuse, which they often screech at anyone who disagrees with them. The skinheads, however, take this as a compliment, and are proud to be regarded as the Stormtroopers of the New Dawn, and many are pledged to fight forever against the enemies of their beliefs.

Presently the skins' greatest enemies are the Communists, and certain ex-Nationalists from 'White Noise' who refer to themselves as "National Revolutionaries" — yet most of them are ex-students with no guts.

Long may the skinhead movement live; long live White Pride!
